Please click here to understand how to enable JavaScript in your browser. Compact and easy to use, this mono laser 4in1 keeps productivity high. Quick, energy efficient and cost effective, its sleek design makes it a welcome addition to any small office. Find out more here. By continuing you agree to their use. Check if the cables for the telephone line port and external device port on the back of the machine are connected inversely. This may affect status of the telephone line. Try sending the document later. For an overseas call, add pauses to the registered number. Please wait until the external phone or the optional handset is not in use. Then plug in the machine and try sending again. Because of this, you may not be able to connect to a recipient by dialing an international telephone identification number, country code, and the recipients fax number at the same time. In this case, add a pause after the international telephone identification number.When the System manager PIN is specified Enter the system manager PIN. The setting is complete. Masks will be required prior entry. Masks will be required prior entry. The default receive setting is mode. This mode is available for certain countries only and requires subscription to a network switch service. Duet capability. If you subscribe to this service, your line is assigned two numbers one for fax and one for phone. When the fax number is called, the network sends a specific ringing tone which your machine recognizes and automatically handles as a fax call. If the phone number is called, a different ringing tone is sent out from the network so that the call is handled as a voice call. This means that there is no switching delay at the callers end. Contact Telstra for connection information. This service allows you to assign two numbers to your line one for fax and one for telephone. When the fax number is called, the network sends a specific ring tone which your machine recognises and automatically handles as a fax call.
